DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-39, 81-83, 104 and 105 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, recites in line 2 "a filament with a first probe disposed in an annular fashion". It is not clear whether the first probe is only one probe/molecule, or whether it is a first plurality of probes because it appears that there needs to be a plurality of probes in order for them to be disposed in an annular fashion (see for example claim 4.)

Claim 81, line 1, recites "the first probe". The claim lacks antecedent basis for this limitation.

Claim 82, line 1, recites "the plurality of different probes". The claim lacks antecedent basis for this limitation.

Claim 10, line 1, recites "the charge". The claim lacks antecedent basis for this limitation.

Claim 105, line 1, recites "the current, amperage, voltage or polarity". The claim lacks antecedent basis for this limitation.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 3-39, 81-83, 104 and 105 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 79, 80, 84-103, 106-116 are allowed.
